

I've Got a Voice

Children and adults alike will enjoy singing this song together. It would be best accompanied by guitar and rhythm or percussion instruments that young children love to play. This gives children a special role in this song as everyone joins in the singing. This song enables participants to focus on their own special calling within the community of God's people and the way in which they are signs of God's grace in the world. Verses 4 and 5 can be sung together, with half the group singing verse 4 while the other half sings verse 5, and then switching. Alternatively, the verses can be sung in unison as printed in the music, and as recorded on the *Seasons of the Spirit Music CD*.
